3. WHAT ARE THE RISKS OF INVESTING?

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at quaystreet.com/investor-basics.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for a 5 year period to 30 September 2017. While risk indicators are usually relatively stable, they do change from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

DESCRIPTION OF HOW CHARGE IS CALCULATED

Administration Fees	Up to \$30.00 per annum per member charged to your member account in September and March.
Scheme Expenses*	Approximately \$15.58 per annum per member. This estimate has been based on the total amount of costs and expenses recovered during the Scheme's previous financial year on a per member basis. The actual expenses incurred will vary from time to time and are recovered on a per member basis.

* Scheme expenses are significantly impacted by the costs of transitioning to the Financial Markets Conduct Act 2013.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the QuayStreet KiwiSaver Scheme on the offer register business.govt.nz/disclose.

Small difference in fees and charges can have a big impact on your investment over the long term.
